## Work Experience

---

### Raise Digital | Jan 2022 - March 2022

#### WEB DEVELOPER

- Worked on Website creation.
- Developed Job-Job seeker website which can be used by recruiters and students who want to search for jobs.
- Here recruiter post their job details and students can apply for jobs which there are capable of and users can see the competition for the jobs.

### Freelancer Web Developer | Self-Employed | Jan 2024 - present

Project: openstudyai (Ongoing)( <https://openstudyai.com/>)

- Developed the web application using React.js for the frontend and Flask for the backend.
- Utilized AWS for deploying the application, ensuring scalability and reliability.
- Collaborated closely with the client to understand requirements and provide tailored solutions.

Project: Sales Dashboard

- Built a comprehensive Sales Dashboard using Python, enhancing data visualization and decision-making.
- Employed packages such as openpyxl, pandas (2.0.1), plotly (5.13.1), and streamlit (1.25.0) to process and visualize sales data.
- Delivered a user-friendly interface that allowed for interactive exploration of sales metrics.

## ACHIEVEMENTS

---

### Codekaze event

Competed in codekaze event conducted by coding ninjas, Cleared 1st and 2nd round , Got Cash reward for 3rd rank in my college in 2022, Got 1<sup>st</sup> rank in my college in 2023 and got respective reward (Criteria: college wise merit list).

### Codigo Event

Competed in codigo event cleared 1st round, selected for round 2 conducted by MLR institution of technology.

### Leet Code

Got 100days badge which shows my consistency. My top contest rating is 1554.

### HackerRank

Hackerrank-5 star(gold) in (30 days of code,Java) and 3 star (silver) in (problem solving),certified in basic java and SQL.

### Technical fest

Organized an event in the Techfest.
