EDUCATION

Vidya Jyothi Institute of Technology

Bachelor of Technology in Computer Science; **CGPA: 7.99**

Hyderabad, India

Aug. 2019 – Aug. 2023

Narayana Junior College

Intermediate in Mathematics, Physics, Chemistry (M.P.C); **90.1%**

Hyderabad, India

2017 – 2019

EXPERIENCE

Software Developer (Founding Team / Architect)

Aug. 2024 – Present

Vectorsoft

Hyderabad, India

- **End-to-End Architecture:** Acted as the primary architect for both frontend and backend systems, designing a modular micro-services ready structure using **Elysia (Bun)** and **Next.js** that improved development velocity by **40%**.
- **Cloud & DevOps:** Engineered the complete **AWS infrastructure** (EC2, S3, CloudFront, Route53), implementing **Docker containerization** and PM2 orchestration to achieve **99.9% uptime** and 100% environment consistency.
- **Full-Stack Reusability:** Developed a shared UI component library and custom React hooks, achieving **60% code reuse** across different modules, significantly reducing technical debt and frontend bundle sizes.
- **AI & Automation:** Integrated **AWS Bedrock** for intelligent OCR workflows, automating complex document processing and reducing manual operational overhead by **75%**.
- **Database Optimization:** Architected scalable **MongoDB** schemas and indexing strategies that reduced API response times by **65%** and enhanced data retrieval for high-concurrency workloads.
- **Security & Auth:** Implemented enterprise-grade security protocols using **Auth0/Okta**, including multi-factor authentication (MFA) and granular Role-Based Access Control (RBAC) for secure internal and external data access.
- **Performance Engineering:** Optimized the frontend rendering pipeline using Next.js (SSR/ISR), resulting in a **30% increase** in Lighthouse performance scores and faster Time-to-Interactive (TTI).

Freelance Full-Stack Developer

Jan. 2024 – Sep. 2024

Self-Employed

Remote

- Designed and launched **openstudyai.com**, an AI-driven educational platform, architecting a **highly scalable Flask/React** stack on AWS to support a growing global user base.
- Managed the full product lifecycle, from initial UI/UX wireframing to production deployment and cost-optimization of AWS resources, reducing monthly spend by **20%**.

TECHNICAL SKILLS

Programming Languages: C, Java, JavaScript, TypeScript, Python

Core Concepts: Object-Oriented Programming, Data Structures & Algorithms, System Design, Problem Solving

Backend Development: Node.js, Elysia (Bun), Express.js, REST APIs, WebSocket, Distributed Systems, Modular Architecture, CI/CD, Testing

Cloud & Infrastructure: AWS (EC2, S3, CloudFront, Cognito, Route53, Bedrock, Elastic IP), Auth0 (Okta), IAM, Docker, PM2, Git, Postman, Automation Pipelines

Frontend Development: Next.js, React.js, Tailwind CSS, Tauri, HTML, CSS

Databases: MongoDB, DynamoDB, MySQL, PostgreSQL

Tools & Practices: Agile, Code Review, Version Control, Debugging, Cross-team Collaboration

ACHIEVEMENTS & CERTIFICATIONS

Competitive Programming & Problem Solving

2022 – Present

LeetCode, HackerRank, Coding Ninjas

- **LeetCode**: 200-day streak, peak rating of 1554 demonstrating consistency and problem-solving ability.
- **HackerRank**: 5-star in Java & 30 Days of Code, 3-star in Problem Solving.
- **CodeKaze (Coding Ninjas)**: Ranked 1st college-wide (2023) among 400+ participants.

Certifications

Ongoing

HackerRank Platform

- Certified in **Java Programming** and **SQL Database Management**.

Leadership & Team Collaboration

2022 – 2023

Technical Events & Hackathons

- Organized and led technical events at college fest, mentoring peers in coding and project execution.
- Advanced to Round 2 in **Codigo Coding Competition** (MLR Institute of Technology).
